LEFT-TURN SIGNAL IMPROVEMENTS TEMPLE STREET AT HILL STREET AND HILL STREET AT 1ST STREET SUPERVISORIAL DISTRICT 1

We are pleased to report the signal improvements to provide a left-turn protected-permissive phase for westbound Temple Street at Hill Street and southbound Hill Street at 1st Street within the City of Los Angeles were completed July 10, 2012.

The left-turn protected-permissive phasing operation will facilitate ingress and egress to and from the Kenneth Hahn Hall of Administration parking facility and allow vehicles turning left to turn during a protected left-turn arrow and during a green ball display when appropriate gaps in traffic occur. Since these intersections are within the City of Los Angeles, we worked with the City to maximize the green arrow for the protected movements. Due to the existing signal-timing coordination in the downtown area, the time for the green arrow is limited. We will continue to work with the City as opportunities arise to provide additional time for the protected moves.

If you have any questions, please call me or your staff may contact Patrick V. DeChellis, Deputy Director, at (626) 458-4004.
